This afternoon's briefing is not the place to inform the Administrator about any problems we may be having, Liz. If we cannot process the programmatic agreement without the Park Service "signing on" (and I am not convinced we cannot), then we may want to suggest to the Administrator (but not at this afternoon's meeting) that a call to his counterpart at the Department of the Interior may be in order. We can discuss that possibility at your convenience. Thanks. Carl

I have a conflict, Ray. Susan and Liz will be there. We'll figure out how to deal with the issue. I know the Administrator does not want to hear about possible delays. We'll be in touch. Carl

Hi Carl, I just picked up your message from awhile ago. Sorry about not getting back to you in a timely manner but for some reason I did not pick it up despite being my voice mail recently. I hope you or Susan will be the lead in the call with Peter tomorrow. The PA is a problem. Ray

I know that everybody has been working diligently to adhere to the Administrator's schedule. Now we are in the home stretch. If you are aware of any issues or entities that might impede progress, the Administrator needs to know about them right away. The Administrator has said that he is willing to make calls to other agencies or otherwise intercede, if need be, to remain on schedule. Everyone's "can-do" spirit is impressive and much appreciated. Thank you.
