Ray,

I have highlighted paragraphs where I made edits to the text. Not all changes are in track changes. Under the heading City's Runway Shift Proposal, I highlighted in grey text that could be cut if we solely wanted to reference FAA's materials on potential impacts. I had tried to pull out of the FAA memo some of the potential impacts that demonstrated that the scope of the potential impacts went beyond airport property and affected other Federal agencies, sensitive environments, and communities.

Let me know if you have questions,

Liz
