**Subject:** Rail PA-related motion passed by OIBC 4/14/10

Aloha no kakou,

Below is a motion related to the Rail PA that was passed unanimously at the meeting of the OIBC on 4/14. We will strongly urge the Hawai'i SHPO to duly consider this motion.

We are also sharing this motion with each of you in your capacity as signatories or consulting parties to the PA, in the hope that you will as well consider the points raised.

Best regards,  
Kehau

-----  
Whereas, the current PA for the City's rail project includes a phased approach for archaeological inventory survey, and

Whereas, HRS Chapter 6E-8 and 6E-42 preclude a phased archaeological inventory survey approach, and

Whereas, the State Historic Preservation Officer has the ability to safeguard the full authority of State historic preservation laws and the integrity of historic properties and burial sites, and

Whereas, the OIBC Rail Task Force has been guaranteed in numerous PA meetings that State laws would not be circumvented by the PA,

Therefore, the OIBC strongly recommends that the State Historic Preservation Officer object to any version of a PA that allows for a phased archaeological inventory survey approach, and that the OIBC communicate the same to the PA signatories in our capacity as consulting parties to the PA.
