Good deal, Ray; we'll let you know the results of the phone conversation and where we're going from here (I hope). Thanks. Carl

I received the message from Susan after I contacted the FAA. I then called them back, yesterday, and postponed our effort for a staff call pending the Administrator's discussion with Kate Lang.

The Administrator will speak with FAA's Kate Lang at 12:30 today, Ray. In a note he transmitted to Susan last night the Administrator advised not communicating with FAA field staff until he has spoken with Kate and has a feel for where we are (the Administrator just left my office after reinforcing the message he communicated to Susan last night). In the circumstances, I recommend getting in touch with FAA field staff and others and postponing the call until Monday or sometime early next week. Carl
