Subject: RE: FTA Honolulu Next Steps

Ted and I spoke to Pete Ciesla of the FAA today and here are the FAA expectations for getting to a ROD:

- HDOT submits an updated ALP. FAA review of this will take 30 to 60 days. This review can happen concurrently with the review of an administrative or preliminary FEIS.
- FAA sends a conditional approval letter (probable time – 40 days) of the ALP to HDOT and the condition would be the completion of NEPA with FAA's ROD.
- HDOT requests an airspace review via form 7460 which can happen concurrently with the ALP review.
- FAA expects to review the administrative FEIS and will need 30 days.
- FAA expects HDOT to review and comment on the administrative FEIS. Like FAA, HDOT is a cooperating agency.
- FAA expects that the FEIS will contain the information that was submitted in Ben Deleon's memo. Also, FAA wants to have their 19 usual impact areas reviewed in the FEIS.
- I expect that there will be a substantial amount of comments from the FAA on the documents that we have just received which will require the City's resubmission of a new document.
- After publication of a NOA and a 30 day availability period, FAA will wait for FTA's ROD before FAA issues it's ROD.

Does anyone have a sample memo for FTA's decision on whether supplementation is required?

Thank you,

Ray
