Jim,

NPS has concerns regarding the potential realignment of the route near the airport that has been under discussion between the FTA, FAA, State DOT and the City and whether there is concurrence among the signatory parties that the PA adequately addresses the possibility of such a realignment. We have yet to complete our review of the draft final PA.

Jim.

Thank you for sending the Draft Final Programmatic Agreement. Yes, there were many meetings that we and other consulting parties attended and consensus was reached on much of the document. We wanted an opportunity to review so that we can appropriate advise our Directorate when we receive the final agreement for signature.

RE: Honolulu 106 PA

Elaine:
If I counted correctly, we had 11 meetings where all of the consulting parties were invited to attend and reached consensus on a draft final document.
The three Signatories, whose responsibility it is to carry out the provisions of the document, have circulated the document internally and tweaked the draft final language. The document has undergone legal sufficiency review from each of the agencies. There have been no substantive changes in the document since you last saw it, with the exception that the Navy has decided to become a Concurring Party. The Signatories intend to meet early next week to make final modifications and wrap-up the agreement.
We understand the delicate nature of NPS relationship with the Hawaii SHPD, and are including the Draft Final 106 Agreement for NPS review.
Jim

Jim,

Several months have passed since the last draft PA was circulated and we have not been party to the interim discussions. Can you please send us a review copy of the PA prior to sending the final for signature? Has the City had an opportunityto review the PA?

Hello, Elaine.
The Signatories are wrapping up the 106 PA next week. We will circulate shortly thereafter.
Who would sign the Invited Signatory line for NPS, and what is the person's position?
Thanks;
Jim
