Hi Steve,

Renee Marler, from Region 9, and Carl Bausch, from FTA HQs, will be joining me at the meeting.

I will be using my government identification and it's number is 0000040495.

Thx,

Ray

Subject: HNL Rail Coordination Meeting 3/17/10 12pm HST

Aloha Everyone,

We would like to reconvene our meetings to discuss the rail alignment through HNL. Attendees for this meeting are the City and County of Honolulu (CCH), HDOT, FTA and FAA LOB's. We are just about complete with our comments for submittal into the FTA EIS and would like to discuss our findings and potential impacts as a result of the various rail alignments.

We are asking for your participation again and want to keep the number of participants at a minimum so we ask that a representative(s) from each office be identified. I'll need the names of all persons attending this meeting by COB 3/12/10. Please include any identifiable serial numbers that match your ID's (i.e. if you're presenting your driver license or AOA or FAA badge to the Hickam guard, send me the serial number so I can pre-list it with your name.). Just a note, Federal ID's should get you onto Hickam but the pre-list of names will be required for access into the HCF FAA secured facility for everyone.

Date: 3/17/10
Time: 12pm-4pm HST

AR00115490

Place: FAA HCF Conf. Rm.

We will have hand-outs at the meeting for discussion. Attached is a map to the FAA HCF on Hickam AFB, also shown below. (See attached file: hcf map.pdf)

Please call me if you have any questions regarding access to Hickam AFB and the location of the FAA HCF at 760 Worchester Ave.

Thank you.

Steven Wong
