Subject: FAA to present their findings this Wednesday

Hi Everyone,

On Wednesday, Feb 3, the FAA will be in Region 9 to present their findings on Honolulu Airport impacts and related alternatives. We plan to start at 10am pst or 1pm est and I expect this to run at least 2 to 3 hours. An agenda with meet-me number will be coming soon and possibly some documents.

The agenda will basically consist of FAA's presentation of their findings, a discussion of the NEPA implications and the next steps of communicating these findings to the City and HDOT. At this point, we want to refrain from discussing this meeting outside of the FTA until we have had a chance to discuss the next steps with the FAA.

Thank you,

Ray
