I am getting Liz involved, Ray. This project has a long history. I agree that a lawsuit is inevitable. I think it might be a good idea if Jim spends some of his waning days with us compiling what he can contribute toward the administrative record. I'm also pretty sure that you all have quite a bit of material pertaining to this project that is not in our files; we'll coordinate. Thanks. Carl

Subject: Barr's replacement

Hi Carl,

When Liz is back on her feet, I think she needs to get fully immersed in Honolulu with Jim. Since a suit is likely, she will be the one who will compile our administrative record and the more we can get her fully-briefed on various issues, the better. Is there a way to start get her more involved with us now before Jim sails away?

Thx,

Ray
