Subject: RE: Updated Roadmap

Jim – There may be some minor modifications as they progress, but I do not see any other changes that need to be made now. I agree we need to review the dates provided by the City before taking any further action. We have already started reviewing some of the items that are listed (e.g. WOFH Contract documents), but it will require a lot of coordination to get them to the next phase.

I will forward this version it to the City with everyone that has been included on this email trail copied. I will also inform the City that they should coordinate any future activities related to the Roadmap with you and Cathy.

Thanks,
Timothy L. Mantych, P.E. (MO, IL)
Jacobs

Tim:

I'll be happy to maintain the roadmap.

If you don't think there are any changes needed to version 0.7, please forward it to the City so that they can continue to populate the entries.

When they are done, both the PMOC and FTA will need to add our own dates. Our ability to add dates will depend on the degree to which the City's dates are reasonable. If they are not, we'll probably need a conference call first to work out a set of mutually acceptable dates for City deliverables and then subsequently enter ours.

So, I'm thinking that we get the City's entries before we decide on the next steps.

What do you think?

Jim

My suggestion is that the road map lead and transmittal back and forth and subsequent review and changes etc to and from the city should either be Jim Ryan as the Team Leader or Cathy Luu as the Program Manager for this Project. I am not clear that this is a lead activity for the PMOC. Thanks.

Jim - If it is OK with you and Region 9, I will send this version back to the City, so they can complete entering their deliverable dates. We will then add the PMOC dates. There will still be some gaps, but I agree that consideration should then be given to baselining the Roadmap.

Thanks,

Tim:

Looks good to me. I added some conditional formatting to color-highlight dates that are approaching. The criteria are specified in the upper right corner, and are changeable if the breakpoints I entered (15 days, 8 days, and 1 day) are not useful. If the highlighting is not useful at all, then all of the criteria can be set to 999 days and no highlighting will occur.

I updated the version number to 0.7 and made some cosmetic changes. At some point soon, we ought to declare version 1.0.

Thanks.
Jim

Subject: FW: Updated Roadmap

Jim - The City has made some changes (in red) to the Roadmap based on the call yesterday and has asked whether there are any comments on their proposed changes. The only item I believe was not specifically discussed on the call yesterday was "1.03 - Updated Airport Layout Plan (ALP)".

Thanks,

Timothy L. Mantych, P.E. (MO, IL)
