The City determined a Phase II investigation was not required based on the findings of the Phase I and the Navy's closure site assessment. I only have the summary of the closure site assessment (what you were sent), but will get the complete report.

I only received the first 20 pages through 1-4.

Also, would you please add the Phase 2.

Is there another way of getting this? Maybe a resend might work.

Ray,

Faith asked that I provide you a copy of the Phase I site assessment for the former Navy Drum Site. I have attached it (2 files, one per parcel

AR00118908

number) via FTP link along with a copy of the summary of the Navy's closure site assessment. Basic summary is the site has been previously contaminated, cleaned-up, and received a notice of no further action for the cleanup. There is some residual contamination that is below action levels as indicated by the Navy report, but the site is appropriate for industrial or commercial use.
