Jim--Looks good to me. Are you OK with saying that we will forward forwarded the incoming and response to Region IX to share with the project sponsor in Honolulu? I know we've done that several times in the past. Besides getting concurrence from the Region, please be sure that the Region knows that they'll be getting the correspondence and that the FEIS should address these issues. You can send them these letters electronically even before Peter signs off, so that Honolulu and its contractor can begin incorporating the issues and preparing responses. Thanks for working this through with me. Susan

It looks good, Jim. I would substitute "issues" for "comments" in stating that we will consider their letter; otherwise it looks good to go. When Susan concurs with whatever changes she may make, would you please send the reply to Ray for the region's concurrence? It is more difficult for me to do remotely. Many thanks. Carl

I can't access the O: drive outside the building, Jim. Could you make it an e-mail attachment and send it to me that way? Thanks.
