Hi Jim,

Here is the letter to Honolulu. I spoke to Toru about the PA and airport alignment this morning and one of his other concerns is not always knowing what FTA's issues are. In some instances he is correct and this discussion reminds that we owe the City our:

- FMOC report and comments (and I suggest that we engage them in some sort of workshop),
- completion of the FEIS comments including 4f issue and new airport alignment (once delivered),
- final response to PA reconciliation document,
- comments on the PMOC's quarterly progress review meeting notes, and
- safety letter to the state.

Thanks,

Ray
