I'm OK with your forwarding it to the administrator. I'm supposed to be at AECOM to work on the Charlotte south line before-and-after study but am rethinking that given several other things that are going on.

Subject: Honolulu safety oversight agency letter

Jim, I have the long-delayed letter to Gov. Lingle about the State Safety Oversight Agency. Basically the letter says that an SSOA has to be designated "during the early portion of the project's preliminary engineering phase." As TCC-1 has signed off on this already, I'm willing to accept that legal interpretation. Peter has given specific direction on the letter (Nov. 17).

As this letter is so overdue, I hesitate to hold it beyond tomorrow morning. Are you able to review the letter and concur first thing in the morning, or shall I go ahead and forward to Peter for sign-off? Susan
