Aloha Everyone,

The attached letter was generated to assure the FTA that Federal environmental process' will not be circumvented as the Federal EIS was being finalized for the entire Rail Project. There were some outstanding NEPA reviews on impacts to the airport resulting from the rail alignment. One of the primary alternatives was the relocation of the Rwy's 4L and 4R at HNL to keep the rail out of the RPZ's. The letter states the City is responsible to prepare and fund the environmental document for the runway relocations. The FAA will be a cooperating agency and part of the coordination with this NEPA document. Air Traffic has also been attending the rail meetings.

Please call me if you have any questions.

Thank you.

Steven Wong

Dear Ron and Gordon:

Here's the letter. I advised Nancy to have Chris Van Wyk contact Ron next week. I'll be in next week and can give you more background if you need it. Thanks.

Regards,

Daphne

FAA Letter on Honolulu

Daphne:

Here is the letter. If you don't get a contact until next week, please provide the information to Chris Van Wyk.

Thanks,

Nancy-Ellen(See attached file: Honolulu DOT \_ Project Mitigation for Airport Runways 11.3.09.pdf)
