Ted:

Looking forward to it. I'll bring along some general information on the ACHP and Section 106 review.

See you Monday,
Blythe

Subject: Meeting Monday November 30

Blythe,

Thanks for offering to meet with us. I spoke to Ray Sukys, Director of Planning for Region IX, and he thought it would be a great idea if you would speak to the planning staff about ACHP and their roles and responsibilities. Most of us aren't all that familiar with ACHP and it would be great if you could give us that overview. There are 8 of us but we're a friendly group. Perhaps after that Ray, you and I could discuss Honolulu a bit.

We'll plan on seeing you at 3:00 PM in our offices on Monday, November 30. We're at 201 Mission Street, one block south of Market Street between Main and Beale. We're at Suite 1650, which is half of the 16th floor. You just have to check in at security at the lobby and tell them where you are going and have a picture ID, you don't need to be escorted. We'll be in ethics training on the 18th floor from 2-3 but I'll leave a little early to meet you at our offices.

Our offices are right off the Embarcadero BART and Muni station, and we're about a 10-15 minute walk from Union Square, all downhill (not on the way back!)

Call me on my cell phone if you need anything, 415.505.1401. Thanks so much for offering to speak with us.

Ted Matley
