The attachment is not readable. Looks like the mysterious temporary file that Windows opens in parallel to whatever file you are editing. Hopefully you still have the Word file itself.

TRO9 (Ed Carranza) called Susan B. twice asking for the Honolulu financial assessment so that they could share it with DTS so that DTS could start working on the recommendations for improvement. After looking through our files on the O:drive, I could only find a draft assessment. I have made some edits to put in a final form that can be shared with the grantee, but I have not reviewed it for content. Please let me know if you are comfortable forwarding this version of the assessment to the grantee or whether there is another version circulating somewhere that was used for the PE approval.

Thanks,
Beth
