Subject: Call from Honolulu

Peter,
Toru Hamayasu, the project manager for the Honolulu project, just called me. I believe you got the same information from Honolulu consultant, Dennis Dwyer, via e-mail, and in a phone message from Wayne Yoshioka, Director of the Honolulu Department of Transportation Services. Toru said:

Mayor Mufi Hanneman wants to let you know that:

- At 2:30 this afternoon (Hawaii time), there will be a signing ceremony for the Kiewit Pacific contract (~\$482 M). The City incorporated provisions into the contract to ensure that NEPA (which is not completed) is not compromised.
- The Mayor will soon sign project labor agreements with some labor unions--the first "PLAs" for the project.

Susan
