Hi Russ -

Yesterday, we had a meeting that included a representative from the National Park Service, Frank Hays. Frank was asking about the the draft easement document for the use of the Aloha Stadium property and whether it had been sent to David Siegenthaler for his review. When I spoke with Morris earlier this week, he mentioned that it was his intent to get you the draft easement document on Thursday, November 12th, for your transmittal to NPS. I related this to Frank, but could not tell him that it definitely went to NPS. Your efforts to conclude this matter with NPS will be greatly appreciated.

Also, please let me know when our architects can share with you some of their thoughts on the Aloha Stadium station.

Thanks.

Faith

Hi Russ –

Just checking to see if you were able to provide David Siegenthaler of the National Park Service with a copy of the draft easement document for use of the Aloha Stadium property by our rail project. He needs to see this and pass it on to GSA for their review, prior to his making a determination that the project use of the Aloha Stadium property is in keeping with the recreational use of the property.

The last communication that I had regarding this matter was that Morris Atta of DLNR-Land Division was reviewing the draft easement. Any help you can give us to move this along will be greatly appreciated.

Also, please let me know when would be a good time for our architects to show you some of their ideas for the station.

Thanks.
