Dear Senator Nishihara:

Subject: Leeward Community College (LCC) Second Access

A recent article in your newsletter concerned the LCC Second Access project. We wish to provide you with an update on our project plans.

We have coordinated with the City and County of Honolulu on their proposed High Capacity Transit Corridor Project and have made slight adjustments to the roadway alignment alternatives to accommodate the possibility of a fixed guideway route and transit station at the LCC.

Enclosed is a plan showing the refined second access alternatives. We are completing the Draft Environmental Assessment that will be distributed for public review and comment in early 2007 following the City's selection of a Locally Preferred Alternative.

We appreciate your continued interest in this project. Please call me at 587-2156 if you have any further questions or concerns.

Very truly yours,
