Subject: RE: Honolulu High-Capacity Transit Corridor Project EIS

Hi Ronnie -

The Draft EIS for the Honolulu High-Capacity Transit Corridor Project was released in November 2008. It is available at our website, www.honolulutransit.org. Please let me know if you would like a CD or DVD copy of the document.

The Administrative Final Environmental Impact Statement has been transmitted to cooperating agencies, such as the U.S. Navy, for review. It has not been approved by the Federal Transit Administration for public availability.

If you are interested in reviewing sections of the document, please let me know. Also, we are more than happy to meet with you to discuss the project. Just let me know when and where.

Faith

Faith,

Understand the Final draft EIS is out for comment, however, the Hickam Environmental Office has not received a copy of the EIS or a request for comments.

Please forward same to me.
