Hi Everyone –

Transmitting the following:

- Listing of suggested PA Stipulations and their disposition
- Chronology of discussions regarding PA provisions with signatory/consulting parties

The listing of suggested PA stipulations shows that the PA was not developed solely by the City, but done in consideration of recommendations by signatory/consulting parties. The chronology shows the extensive discussions regarding the PA stipulations prior to this final round of discussions. Hope this helps you to understand the work and coordination that had been done prior to these most recent discussions.
