Subject: Hawaii's \$2.6B LRT Proposal

Hi all,

Region IX just got off the line with the Administrator and she would like to call Mary Peters and then the Governor of Hawaii about Hawaii's newly unveiled proposal to build a 2.6B LRT and a \$200M elevated highway flyover. The Administrator is concerned that the state may be getting ahead of itself on this proposal. Aside from the obvious issues revolving around cost, the Administrator would like to have conversation bullet points about FTA's New Start's process and how the identification of the current proposal would be inconsistent with our process or potentially leading to a later problem. Could we have a call at 8:30 pst or 11:30est, December 1, to talk about this.

Our Conference call number is 877 960-0440 and the code is 704828#.

Ray
