Steve,

Thanks for clarifying, since it appears the fifth sub-bullet under the design options matrix discussion covered both the H- 1center and the Mauka H-1 options.

Just a quick clarification on the options we discussed. The summary we sent of the meeting last Wednesday refers to a "Nimitz" option. That is the name of the H-1 Makai option, on the south side of the freeway. It was the alignment considered during the last project, in 1992. Jim Dunn discussed it from the 1992 plans. Hope that helps.

Hi Faith,

Thank you for preparing the notes. I made some edits based on our notes and left the track changes in place so you could see our changes. Let
me
know if any other edits or clarification is needed.
