Honolulu High-Capacity Transit Corridor Project Actions

Section 106 process initiated in 2007. Consulting parties formally invited in December 2007.

In coordination with SHPD, the FTA and the City define the Area of Proposed Effect (APE) for the project alignment in February 2008.

Archaeological and Historic Resources Technical Reports completed August 2008; identified 81 resources within the APE.

Final Historic Effects Report completed April 2009. FTA and the City accepted the SHPD guidance of 33 adverse effects in July 2009.

Consulting party meetings began in July 2009.
