So we never received a complete version of the SCCs? Please be sure to mention to the grantee that all future submittals must contain a complete SCC workbook.

Jim,

Thanks for the update. Have Happy Holidays!

The City sent us that file a few days after submitting the revised financial plan in August. The revision to both the financial plan and the SCC cost estimate was caused by the \$116M added on the recommendation of Jacobs Engr., the PMOC. That is the latest SCC file that we have from Honolulu.

Subject: Honolulu SCCs

Hi everyone

I'm not sure who is on leave and who is in the office today, so I'm hoping at least one of you can respond to my question. The attached SCCs were provided to me by Jim Ryan as those submitted with the Honolulu PE application on which the PE approval was made. These SCCs are incomplete and do not contain all of the worksheets included in FTA's SCC workbook. Specifically, the funding source by year and many other detailed sheets are missing. Did FTA obtain a complete set of SCC worksheets from the City?

Thanks,
Beth
