Subject: Honolulu Rail Transit alignment near Airport - update on impacts to interstate airspace
Attachments: HHCT-B09-RP016 Mauka Terminal.pdf

Jodi,

I would like to give you an update on the latest alignment for the Honolulu Rail Transit project near the Airport. You may be aware HDOT-A requested we completely avoid Airport property near the new Mauka terminal. As a result, the current rail alignment swings wide and goes above and over the eastbound lanes of H-1 near the Airport. The relevant page of the plan set is attached for your information. There have been no other changes to impacts to interstate airspace since I last updated you earlier this year. Please let Faith or me know if you have any thoughts or concerns.

Thanks,
Mark
