Subject: Honolulu Rail Project - Section 106 PA

Hi Ted –

Got your message regarding the signatories teleconference today. Glad you had a good session today, but disappointed that the signatories had changes to the PA. You related that the signatories had some wording changes to the PA. What is the schedule for getting this to us? Will there be another meeting scheduled?

I was disturbed that the signatories are requiring that the Makalapa boundaries be re-drawn in the PA. I am surprised that ACHP would agree with this. I would think that the boundary change would require a new look at the resource's eligibility and effect. This would possibly open up the Section 106 analysis also.

Can we discuss this with you further? Let me know when would be a good time.
