Subject: honolulutraffic.com comments on the Draft EIS

Mr. Yoshioka:

In addition to our cover letter, our comments on the Draft EIS are attached in seven parts:

- Part I All reasonable alternatives were not studied.
- Part II Insufficient consideration of elevated rail impacts.
- Part III The Locally Preferred Alternative must be studied in the EIS.
- Part IV First Project, Phase I, is an illegal segmentation.
- Part V Unjustifiable forecasts.
- Part VI Strategic misrepresentation in the Draft EIS.
- Part VII Strategic misrepresentation outside of the Draft EIS.

Thanks for the opportunity to comment.
