Subject: ACHP interest in Honolulu High Capacity

Ted:

One of our colleagues just got off the phone with ACHP staff. ACHP have taken an interest in the on-going 106 negotiations in Honolulu. Apparently, they have been in contact with one or more parties to the discussions. It has come to their attention (rightly or wrongly) that two MOUs are developing out of the consultation process. ACHP would recommend one MOU. They are prepared to offer us their assistance in the negotiations, and we should expect a letter from the chairman in that regard.

Best;
Jim
