Subject: Honolulu Rail proposal

Dear Sirs:

I have been a resident of Honolulu for 58 years and have witnessed the incredible increase in traffic congestion. I am very concerned that there was no opportunity for the general public to voice their opinion on possible traffic solutions. The City has said that Rail will NOT reduce traffic congestion.

WE NEED A SYSTEM WHICH WILL REDUCE TRAFFIC CONGESTION FROM CURRENT LEVELS!!!!!!!

The public is being misled and will end up having to pay for a fiasco. How can we be heard?????

Thank you,

Bronwen L. Welch
