Subject: Honolulu High-Capacity Transit Corridor Project

Hallelujah, the deed is done. Thank you very much Faith, Amy and Pam for helping OEQC. And a special thank you very much to Les for poring over the tedious comment letters to separate NEPA from Ch. 343, HRS on the FEIS, a critical and most time-consuming part of the acceptance exercise.

The documents will be hand-carried over to the governor's office first thing tomorrow morning, barring intervention by Murphy's Law.

Good nightJ
