Subject: Honolulu Precast Yard

When: Thursday, September 02, 2010 3:00 PM-4:30 PM (GMT-05:00) Eastern Time (US & Canada).

Where: 877-336-1828 passcode 5963374

Note: The GMT offset above does not reflect daylight saving time adjustments.

~~*~*~*~*~*~*~*~*

The primary purpose of this call will be to discuss a proposed precast concrete staging area for the Honolulu Transit Project. If needed and time allows, we may use this time to also briefly discuss comments on the FEIS and prep for a call next week on the programmatic agreement.

For FTA, I have placed information on the precast yard on our internal drive under the folder Honolulu. This includes the initial letter and map sent from the contractor, comment letters from state agencies, a list of who received a copy of the contractor's EA letter and emails that Faith and I exchanged with additional descriptions of the yard.

Faith, please invite other colleagues or contractors from your office who can discuss the precast staging yard. Also, feel free to send out any materials in addition to the ones that I described above that can help us with the discussion.

Thanks,

Liz
