Faith, I reviewed the materials that you provided and the responses. Overall, the responses were very helpful. I would like you and your consultants to be prepared to discuss a few items on Monday.

- Clarifying the adverse effects determinations for all 33 properties. This is a request by the signatories and a number of signatories either as an attachment to the PA or other means.
- Updating the Area of Potential Effect map to make it more clear for the consulting parties as requested by a number of comments
- Creation of RTA and if or how that should be reflected in the PA.
- Other specific questions

I am leaning toward requesting that the information on the 33 properties and the maps be updated to some degree and would like your thoughts on options and how quickly it can be completed. If you can get started on it this afternoon, that could be helpful.

Please hold this time for a discussion on the responses to comments on the Honolulu Programmatic Agreement and next steps.

FTA, the comments and responses are saved on the S drive under the Honolulu folder.

Faith, please share with your consulting team.
