Hi John -

FTA allowed the FEIS to be released with an unexecuted PA. However, the PA would need to be executed prior to the FTA issuing the Record of Decision.

Faith

Thanks Faith. Yes, I moved and the phones haven't caught up yet. One question, if the PA isn't signed, can the EIS still be finalized, or will the PA have to be signed before the EIS can be finished?

Hi John -

Just called you, but got a message saying the number I called was for a "Liz Zurika".

Anyway, here is the latest on the PA. The PA has not been executed yet. The PA was finalized (?) after discussions among the primary signatories, SHPO, ACHP and FTA. However, after it was presented to the SHPO, Laura Thielen, she refused to sign as written. The PA is presently being discussed by the primary and invited signatories (City and NPS). Please let me know if you need anything else.
