Subject: RE: Honolulu Section 106 PA

Faith -

Laura reviewed the proposal but essentially wanted to hear from ACHP and NPS before saying she was OK with our proposal or not. After I received her email, I went ahead and sent out the materials to the rest of the group. I have not heard any feedback from any of the agencies. I got an out of the office response from Blythe indicating that she should be back next week. Hopefully we will hear something then.

I do not have a deadline for the comment or review, but I will establish one. We can try and set up a meeting for the week of the 9th. Laura Thielen will be in the office that week. Would you be able to coordinate setting up a meeting with the group?

If the Navy would like to be a signatory to the agreement, could you send them and update on the consultation process for the PA, the most recent draft of the PA, Laura Thielen's written comments, and our responses to those comments? Please also invite them to the teleconference with the other signatories.

Faith, if you have any questions next week on the PA please feel free to get in touch with Carl or Region 9.

Have a great weekend!

Liz

Hi Liz -

We are reviewing the revised PA and have the following immediate questions:

Is Laura Thielen ok with the changes that are proposed?

Any deadline for comments/completion of review?

Also, previously the U.S. Navy had asked that it be included as an invited signatory to the PA. This has been raised recently. I would like to discuss this with you as to the appropriate time for this to occur. You mentioned that you would be on leave next week. Maybe when you get back.

Have a wonderful time off.

Faith
