Faith:  
Any changes or additions must be in "Track Changes" in order to meet our schedule for completing the NEPA process.

For any comment theme which is a reiteration of Draft EIS comments, please add a sentence, if it isn't already noted in this version, stating that this is a reiteration of comments on the Draft EIS and a more extensive response was already provided in the Final EIS.

When can we expect the revisions back from you?

Thanks

Faith,

We are considering moving the comment response summary as an attachment to the ROD and have decided to summarize all comment themes in addition to new significant issues at this time. Please have your consultants review the attached document for consistency and accuracy with other statements that we have made on these topics.

Thanks!

Liz
