I spoke with Ben Deleon at FAA; he is interested in looking over the final impact statement as revised by us, Susan. Liz is going to forward the document (CD) to Ben when it's ready. Thanks. Carl

Should we be sharing the submission from HNL or the final version after our review?

My impression is that they would want to see the revised FEIS to see how the description of the alignment in the runway protection zone is treated. Have you sent this to the Region? Would you like me to forward it?

It is another step in the process to consider as we identify what our next steps would need to be in getting to a ROD.

I couldn't read the attachment on my BlackBerry; FAA wants to see the administrative FEIS--the "existing" administrative FEIS or the "revised" FEIS? I don't have a big problem with either; FAA is a cooperating agency and disinclined to stand in the way of progress. Thanks. Carl

They are requesting to review the Admin FEIS.

Hi Ben,

Attached is the cover Memo and the updated FAA HNL transit rail information paper based on our discussion this morning.

The Memo is from Deb to Carl Bausch at FTA transmitting the information paper.

Pete
