On our call today, they said that they had already updated this Appendix I, so we should wait until we get the updated version before checking it against the letters.

Subject: Honolulu Mitigation

Last Friday, when we asked the City of Honolulu people to create a mitigation table that includes all mitigation commitments in the response letters, they claimed that that table already exists as Appendix I (which is attached). Please, if you found mitigation discussion in a response letter, please spot-check the attached appendix to see if that mitigation appears in the table in comparable detail.
