Liz,

Ted and I will work on obtaining the signatures. To meet the schedule, we will try to do this simultaneously and will end up with multiple signature pages with a single signature on each page. Let me know if there is any heartburn with that approach.

Ray

Subject: Honolulu PA
Importance: High

The Honolulu Programmatic Agreement is ready to move forward for signature. The City is making small changes to one of the map attachments to the agreement. However, the text of the agreement is in its final form. S:\Honolulu\Honolulu PA\FINAL PA

We have not discussed this, but I believe the agreement and processing is something that is best for Region 9 to handle. I can help with making contacts with consulting parties and discussions with the City, but someone in the Region should push the PA through whatever Regional approval processes are needed.
