I agree with Richard's comment and think that we need to be more emphatic about an early start up; quoting the reg still leaves the state with quite a bit of time before they need to designate. Or, would we want to be specific that we would not consider Honolulu's FY 2010 5307 application until designation. Would that motivate? Also suggesting we appeal to their interest in safety w/ an add on page 2, if Mike has data that can support it. See comments.

FYI and gaining traction as well to support your trip next week to the islands. This remains internal until execution by Peter.

This is very good group, and supports what I thought were the implications relative to funding.

Sean, just place on your DC letter head for the Administrator, and please expedite its circulation.

Thanks to all.

Hi Mike - This is the most accurate and up-to-date version of the letter. I've made a few changes (in "Track Changes" mode for ease of reading) and inserted a couple of substantive comments which you're free to address or dismiss. Hope it accurately conveys what you want to say to the State of Hawaii both in tone and substance.

Richard
