**Subject:** FEIS comments

Unless anyone objects, We're proposing to send to Honolulu whatever comments we have by the end of the day Friday. They would be identified as a first set, as we haven't all got through the draft comment letters and/or the document, and we probably should leave it open as we keep finding more items to comment on.

I have comments from Chris on the 4(f) chapter, comments from Joe, and my request that they review the document for quality control. This is after looking at the Appendix A which has dozens of duplicate letters and was missing the response to Cliff Slater. Also have some comments from Jim on their need to prepare some information that ACHP requested that can be included in the FEIS. Ray has some comments he promised me by the end of the day Friday.

So send me what have and I'll ship it off Friday.

thanks,  
Ted
