Cliff:

I checked with our regional office – where project-specific environmental work is handled in FTA. They report that your comments are in the current working draft of the FEIS and guess that they were omitted from the earlier working draft by an oversight. That's one of the perils of releasing drafts that we're still reviewing.

Regarding your phone message about the Akaka bill's impacts on the financial plan, I had already passed your concern on to the City's consulting team during a conference call. They said they will be examining the issue as they develop an updated financial plan during PE.

Hope this helps.

Jim

Jim:

After reviewing the Appendices of the Draft Final EIS of October 12, 2009, I was disappointed to find that our 67 pages of comments on the Draft EIS have not been included. Could you let me know why that is?

Cliff
