**Subject:** change of contact for ESA

Hi Nami:

I hope you are well; I see you are certainly busy with new projects!

I want to inform you that I am no longer the contact for ESA consultations. Protected resources Division is now headed by Chris Yates. He can be reached at (808) 944-2200.

I will pass to Chris the materials I received today re the "Proposed High Capacity Transit Improvements from Kapolei to the University of Hawaii at Manoa Island of Oahu, Request for Species List, Endangered Species Act."

Regards,

Margaret Akamine
