Subject: RE: Response to FTA's comments on Final EIS

Faith and Judy,

We are still reviewing the revisions to the table. However, our counsel is requesting that we make some global changes to the table. We would like to remove the "substantive new comment" column from the table. We would also like your team to go through a double check whether an issue raised by a commenter has been previously addressed. In cases where the comment has been previously addressed, we would like the response to state "duplicative of previously raised comments" and direct the commenter to the FEIS where the comment was addressed previously. We should continue to provide responses for other comments not previously addressed.

Please call if you have questions,

Liz
