

Historic Preservation				
HP01 Sec. 106 PA	City shall develop schedule for implementation of PA stipulations and send to consulting parties, post on Project website	Before any construction	City	
HP02 Sec. 106 PA	City shall hold quarterly meetings with PA signatories and report on implementation of PA	First 24 months of Project	City	
HP03 Sec. 106 PA	City shall hire a project manager responsible for implementing the PA. City shall follow hiring process specified in the PA for this hiring	Immediately upon FTA's signing the ROD	City	
HP04 Sec. 106 PA	City shall undertake additional studies on Traditional Cultural Properties using a contractor experienced in ethnographic studies and following the process set forth in the PA, including consultation with consulting parties and Native Hawaiian Organizations.	Immediately upon FTA's signing the ROD; pre-construction	City	
HP05 Sec. 106 PA	If the TCP study finds any unexpected TCP in an area potentially adversely affected by the Project, FTA and the City will conduct a normal Sec. 106 review in accordance with the PA.	Pre-construction	City	
HP06 Sec. 106 PA	If the TCP study finds any unexpected TCP in an area potentially adversely affected by the Project, the City will, in accordance with the PA, prepare documentation of that TCP needed to nominate it to the National Register, and submit that documentation to SHPO.	Pre-construction	City	
HP07 Sec. 106 PA	Following the procedures set forth in the PA, the City shall develop and carry out an Archaeological Inventory Survey (AIS) Plan for each phase of the Project. For Phase 4, the City will include a broader list of consulting parties in the AIS Plan development.	Pre-construction	City	
HP08 Sec. 106 PA	If any of the AISs finds archaeological resources eligible for the National Register, the City shall develop and carry out a data recovery and curation plan according to the procedures set forth in the PA.	Pre-construction	City	
HP09 Sec. 106 PA	Following the procedures set forth in the PA, the City shall develop and adopt a protocol for consultations on the treatment of human remains.	Pre-construction	City	
HP10 Sec. 106 PA	Following the procedures set forth in the PA, the City shall develop and use a book of design standards for Project elements located in a historic context.	Pre-construction	City	
HP11 Sec. 106 PA	For each phase of the Project, the City shall conduct a minimum of two neighborhood workshops on the design of the stations in that phase.	Pre-Final Design	City	

HP12 Sec. 106 PA	Following the procedures set forth in the PA, the City shall provide the consulting parties with the design plans emerging from preliminary engineering for every structural component of the Project and consider comments on those plans.	Pre-Final Design	City	
HP13 Sec. 106 PA	Following the procedures set forth in the PA, the City shall conduct historic context studies related to historic themes in the Project area and distribute the resulting historic context reports as specified in the PA.	Pre-construction	City	
HP14 Sec. 106 PA	Following the procedures set forth in the PA, the City shall conduct cultural landscape studies related to historic landscapes in the Project area and distribute the resulting cultural landscape historic reports as specified in the PA.	Pre-construction	City	
HP15 Sec. 106 PA	Following the procedures set forth in the PA, the City shall document certain historic properties specified by the National Park Service and located in the Project area for incorporation into the Historic American Building Survey, the Historic American Engineering Record, or the Historic American Landscape Survey, whichever is appropriate.	Pre-construction	City	
HP16 Sec. 106 PA	Following the procedures set forth in the PA, the City shall develop and distribute photographs and videos of historic properties and historic landscapes adversely affected by the Project and not covered by other recordation stipulations in the PA, and document those photographs and videos appropriately.	Pre-construction	City	
HP17 Sec. 106 PA	Following the procedures set forth in the PA, the City shall produce the "multiple-property" documentation needed to nominate to the National Register a list of the "Modern/Recent Past" historic properties adversely affected by the Project.	Pre-construction	City	
HP18 Sec. 106 PA	Following the procedures set forth in the PA, the City shall update the nominations of Pearl Harbor and CINCPAQ to be designated as National Historic Landmarks.	Pre-construction	City	
HP19 Sec. 106 PA	Following the procedures set forth in the PA, the City shall produce or update the nominations for 31 historic properties to the National Register.	Pre-construction	City	
HP20 Sec. 106 PA	Following the procedures set forth in the PA, the City shall produce a searchable database of historic properties and provide it to an interested historic preservation or educational organization.	Construction	City	

HP21 Sec. 106 PA	Following the procedures set forth in the PA, the City shall develop educational and interpretive programs, materials, and signage on historic matters and humanities, install the signage, and distribute the educational materials and programs.	Final Design and Construction	City	
HP22 Sec. 106 PA	Following the procedures set forth in the PA, the City shall develop and implement an educational program and an effort designed to encourage the rehabilitation of historic properties in the Project area.	Final Design and Construction	City	
HP23 Sec. 106 PA	Following the procedures set forth in the PA, the City shall mark, store securely, and replace all lava rock curbstones.	Construction	City	
HP24 Sec. 106 PA	Following the procedures set forth in the PA, the City shall maintain or replace the guard rails on the Kapalama Canal Bridge to match the historic appearance.	Construction	City	
HP25 Sec. 106 PA	Following the procedures set forth in the PA, the City shall replace each true kamani trees on its original location or as close to it as possible.	Construction	City	
HP26 Sec. 106 PA	Following the procedures set forth in the PA, the City shall plan and implement improvements to historic parks adversely affected by the Project.	Construction	City	
HP27 Sec. 106 PA	Following the procedures set forth in the PA, the City shall create and staff a position for a qualified architectural historian whose primary responsibility will be to fulfill the PA.	Pre-Final Design	City	
HP28 Sec. 106 PA	Following the procedures set forth in the PA, the City shall establish a Historic Preservation Committee for the Project, specify its purpose and functions, and initiate its first meeting.	Initiate pre-construction and operate continuously until PA expires	City	
HP29 Sec. 106 PA	Following the procedures set forth in the PA, the City shall report to the consulting parties on all applications for building demolition and on all City-generated construction projects within certain specified areas of the Project, and shall perform an analysis of the frequency of these activities from the recent past up to the present.	Continuously until PA expires	City	
HP30 Sec. 106 PA	The Construction Mitigation Plan for the Project developed by the City shall include provisions for protecting historic properties from construction noise and vibration impacts, and shall be implemented by the City through the construction contracts, according to the procedures set forth in the PA.	Pre-construction	City	

HP31 Sec. 106 PA	Following the procedures set forth in the PA, the City shall monitor transit noise at the Pearl Harbor National Historic Landmark.	Within 1 year of the start of revenue operation	City	
HP32 Sec. 106 PA	Following the procedures set forth in the PA, the City shall develop and conduct a training program for construction contractors and employees regarding appropriate sensitivity to historic resources.	Pre-construction	City	
HP33 Sec. 106 PA	Following the procedures set forth in the PA, the City shall write semi-annual progress reports detailing progress in implementing the PA and shall post those report on the Project website.	Semi-annually	City
