Hi Liz,

Attached are my reviews of the revised comment response letters. Some general comments to the reviewer:

I have accepted the track changes that FTA agrees with and deleted the track changes comments that have been addressed.

The track changes comments that remain are those that have not been addressed. If a comment indicates that something additional is needed in the response, simply deleting the portion of the response that contains this track changes comment does not mean it does not need to be addressed.

Please let me know if you have any questions.

Have we received any more revised letters? These are all that I have.

Thanks,

Katie Grasty
