CD is ok, just mark or refer to it as a preliminary draft FEIS for reference purposes.

Hi Ted –

As discussed today, we will begin sending you the responses to DEIS comments on CDs. Our intent is to send you individual CDs; one with all agency comments/responses, one with organizations, etc.

I have one more question for you. Some of the responses refer to sections of the FEIS. I am thinking that you would need a copy of the Administrative FEIS for reference and so I was thinking of sending you copies; are CDs ok? Please let me know.

Faith

Subject: Submission of Admin draft FEIS for Honolulu Transit

Faith, after discussing with Ray who discussed with Jim, procedurally we wish you to share the draft FEIS with your consulting parties to get their comments and feedback. Once you have incorporated their comments, submit the Admin draft FEIS to FTA. When you make this submission, make sure that the admin draft has been reviewed for legal sufficiency by your legal counsel and that the transmittal letter from Wayne confirms this. FTA needs to review a final admin draft rather than a document in a state of flux, and there are currently outstanding issues with the resource agencies that need to be concluded.

Ted
