Mark,

I have confirmed with Mr. Takagi that 4:30 on May 30th would be excellent. We know how busy everyone is so we appreciate very much any time spared for us, especially the Mayor's. I believe Mr. Takagi will now also try to contact Mr. Hamayasu by e-maill directly (he will cc the correspondence to you and Clarice Hashimoto as well).

If something comes up concerning the above time and date, just let us know (you can just e-mail me), and we can try to rearrange something, as we fully understand the time constraints all of you are under.

Anyway, we thank you very much and are most grateful for this opportunity.

Aloha Mark,

I was just wondering if you've had any luck arranging anything. Mr. Takagi is especially interested in talking to Mr. Hamayasu or someone who works with or under him (technical side). If no one is available next week Mr. Takagi could rearrange his trip and meeting with PB Consultant Inc. for the week after or even another time. Also, we have Mr. Hamayasu's number so we can contact him directly to try to arrange something. Anyway, I know you are quite busy (I see there has been a rearranging of duties among the city council members), but if you could let me know one way or another about a possible meeting it would be great.

Best regards,
