I hope this will be the last round of comments, Liz. I know we took over a poorly conducted process, but this has gone on long enough, in my view. Sometime later this week or early next week, we should get together and take stock of the Honolulu processes. Thanks. Carl

Subject: Honolulu Programmatic Agreement - Revised draft based on last comments from SHPO and City

Good afternoon,

At the end of last week, we received some final comments on the draft Programmatic Agreement for the Honolulu Project from the SHPO. Her comments included input from the ACHP and the National Park Service. The attached draft PA reflect her comments on cumulative effects and the City's and my edits to incorporate her comments.

In other words, we are VERY close to a final version of the PA!

Before I send these revisions back to the signatories and eventually the consulting parties for comment, I would like to give Region 9 and TCC time to review and revise the PA. The discussion with the City on the precast yard would influence how quickly we can move forward with executing the PA. Once FTA has finished our review, it will be realistically (outside of any influence with the precast yard) three to four weeks for signatory and consulting party review and revision before we can send the PA for signature.

Please try to review the PA and provide comments by early next week (COB Nov. 9th) in case the precast yard turns out to not be an issue.

Thank you,

Liz
